species sought for so long by Mary Ann Henry, and yes Robert Henry, your mother was so close to locating it, but nevertheless provided some fine herbarium specimens on other species. I miss her very much.

It is also a time of reflecting on 50 years ago, when I could stand in one place and see 8 tortoises at a time and to hope that future generations may have similar experiences. It is a time to reflect on the accom-

plishments of many naturalists and scientists, the enduring support of the BLM, and the effects the DTRNA has had on us. 🐢
